

ACCESS TO RMDS REPORTS

In order to improve response time, effective Wednesday, October 4, 1995, users will no longer have the option of accessing RMDS reports via the F4 key on the MAIN FACS Menu. Users will only be able to access RMDS reports by selecting "SMPRMDS" instead of "SMPCICS." Accessing reports by entering "SMPRMDS" is a more efficient system path to the data and will reduce contention with ADPICS and RSTARS transaction processing.

If users select F4 on the MAIN FACS Menu, they will see a message indicating transaction not available.

Users accessing the system via MAP should contact their Agency Report Coordinators for an update to MAP or if they have any questions or problems accessing RMDS reports.
